## VIOFOR

Physical pain can be incredibly uncomfortable, even debilitating, which is why Viofor was created: to quickly and efficiently aid the body when it is in pain. This is especially useful for athletes who aim for the highest physical levels of endurance their bodies are able to attain, making injuries frequent and often intense on a physical level as well as a mental-emotional level.

Government officials predict that the number of sufferers from back pain, arthritis, muscle and joint discomfort and sports injuries is set to increase as the general population ages. Add to that another five million people suffering from multiple sclerosis and other nervous system related diseases and the numbers become frightening.

## WHAT IS VIOFOR?

Developed over the past fifteen years in Europe by the world's leading scientific experts in magnetostimulation, Viofor is a breakthrough in the treatment of pain and helps reverse the symptoms of many major conditions.

## HOW DOES IT WORK?

The Viofor can naturally help support the regenerative and rebalancing processes of the body, encouraging the body to release its own healing potential and having bio-stimulation effects. Once the fused light is applied to the skin it stimulates light sensitive intracellular structures and molecules. This also promotes a secondary response which is not just limited to the treated skin area.

## USE IT WITH CONFIDENCE

The science of light and electromagnetic frequency therapy has shown to do the following physical processes, but also involves the whole body:

- Stimulation of microcirculation for a long time after the session which speeds up the healing process.
- Stimulation of the production of collagen, which is the substance which repairs cells.
- Stimulation of tissue projections and tissue granulation for healing of ulcers, wounds and inflammatory conditions.
- Stimulation of natural immune responses.
- Stimulation of effective analgesic action reducing pain.
- Stimulation of lymphatic drainage of the system.
- Stimulation of the ATP actions within the cells which allow the cells to take on nutrients and dispose of waste more efficiently.
- Light therapy also supplies energy to stimulate the increase in RNA and DNA.
- Stimulation of chemical secretions and hormones, which improves concentration, relaxation and motor sensory activity coordination.

## WHICH CONDITIONS CAN VIOFOR TREAT?

The Viofor is incredible when it comes to treating common conditions such as:

- Back Pain
- Muscle and Joint Pain
- Arthritis
- Sports Injuries
- Multiple Sclerosis
- Neurological Disorders
- Pain and Migraines
- Immune system and lymphatics

## WHY USE VIOFOR?

Viofor is used worldwide and thousands of people have benefited from the device in Europe, particularly in Germany and France. In all these countries, it has been incorporated into conventional medical treatment and can now be found in hospitals, clinics and sports academies – as well as in patients' homes.

Viofor is the only system available in the UK of the quality to be certified by the EU as a medical apparatus. To achieve this status, Viofor has undergone stringent clinical and scientific research which has demonstrated that this is a revolutionary breakthrough in the treatment of pain and the reversal of many major conditions. The generation of variable magnetic fields of extremely low frequencies and low intensity are well-documented to have the following effects:

- Analgesic
- Anti-Inflammatory
- Anti-Spastic
- Regenerative
- Relaxant

Those who suffer from arthritis or bone and joint degeneration benefit from pain relief and improved circulation. Sports injuries are healed more quickly by accelerating the rebuilding of cells, rehydration and oxygenation. This in turn reduces pain and discomfort. What's more, tests show that in the treatment of multiple sclerosis and other problems of the nervous system, significant improvements are made by users. These include reduced fatigue, decreased spasticity, improved mobility, better bladder control and reduced pain.

Doctors in Europe agree that this is a remarkable system which, when combined with traditional treatments, will change the future of remedial therapy. Ask us for a list of certified, fully trained therapists to get your session.

### WHERE CAN YOU GET IT?

This is not a product you can buy in a local store - the Viofor is unique and must be used correctly following the user manual you receive with your unit. If you would like to purchase a Viofor JPS System, or would like more information on prices then please feel free to contact our UK office:

## TESTIMONIALS

With Viofor we use the words the 'power to heal' because this is what Viofor does, heal the condition and ease the symptoms that cause the problem.

**K.I. Ireland** - diagnosed with MS seven years ago, K.I. had lost all feeling in her legs and was confined to a wheelchair when she heard about a nearby clinic which offered electro magnetostimulation therapy via the Viofor JPS 'bed'. She tried it and has been having the treatment ever since. The results came slowly but were quite startling.

*"I'm now walking again with a walker and have actually done 5 steps on my own and I've got more energy. I used to fall asleep at the drop of a hat."*

K.I. says, *"My husband can't believe how much going on the bed helped. I used to go to Tesco in a wheelchair with a basket on my knee - now I can walk around and do my shopping bit by bit every day. We're on a limited income, but we've just decided we have to buy our own so I can use it at home every day."*

Mrs P.B (MS sufferer for 30 years)

*"After just 1 month of having two treatments a week on the magnetic stimulation bed my pain had been reduced by around 80% and my quality of life has been improved greatly."*

---

This is only a taste of the many positive and successful testimonials we have, to give you an idea of how responsive the body is to Viofor in improving the quality of life in general, and specifically for the sufferers of long term chronic conditions.
