 **THERAGEM™**

A Note on Quality

Quality and purity is at the core of the Theragem™ Wellness Therapy System range. We at Medica Health International Ltd work constantly to source only the finest materials available to build our technologies and are constantly investing in the development of new applications.

Our engineers have built Theragem™ to last; we do not believe in designing equipment to specifically fail in 2-3 years which so many companies do now. For example, the light source and EMF coils we use are designed to run a minimum of 50,000 hrs. Based on the average Therapist using Theragem™ 10 hrs per day, 5 days per week, 48 weeks per year in theory a unit should give over 20 years of trouble free usage.

The gems and crystals we use will last forever and because of the unique way in which we seal them into our hand assembled Gemcups, will never need energetically or physically cleansing.

All Theragem™ Gemcups are UK manufactured and hand assembled in our own UK based factory. We use Hi-Tec food grade resin (non toxic), the highest quality optical sapphire crystal glass lenses, plant based colour filters and 18 carat Gold and Sterling Silver pins to seal our Gemcups once the gems have been added.

Human Consciousness has once again awoken to the healing potential of gemstones and crystals. Extensive studies and medical trials show that each individual gemstone contains unique packages of photonic energy, a new concept for modern day science but well understood by Shamans from almost every major documented culture for thousands of years.

Our gems and crystals are sourced from across the globe and are selected for their energetic power and purity. Our gem experts cleanse, balance and bless all our gems prior to them being placed in the Gemcups. From the moment they are cleansed, balanced and blessed they are only touched with organic cotton gloves to ensure energetic purity whilst being fitted into the sterilized Gemcups. Each Gemcup is then carefully packaged in its own velvet bag in an environmentally friendly carton box, or in the sturdy flight case as part of your chosen Theragem™ configuration.

Our current range of Wellness, Spa and Beauty Gemcups consists of over 50 different blends and mixes based on the respected ancient traditions connected with the levels of physical, emotional, mental and spiritual wellness.

Check out our range regularly or keep in touch through our website and blogs as we continue to develop new blends in line with demands of the changing times.

Carnelian has been used to heal open sores, rejuvenate tissues and cells, rheumatism, kidney stones and other kidney problems, gall stones, colds, pollen allergies and neuralgia. Diamond is known as the 'king' of gemstones and, being clear, contains every spectrum of light. As such, it can address a wide variety of ailments, though its main use has been for the balancing and enhancement of the body's metabolism.

SAPPHIRE G1002

EMERALD G1003
