**A RANGE OF GLITTERING ACCESSORIES TO
COMPLIMENT YOUR THERAGEM PRODUCTS**

MEDICAHEALTH

The Theragem family of products offer solutions to a range of issues that plague people around the world. While these therapeutic devices can be used on their own, we also offer a range of complimentary products to truly customise and optimise your treatment options. With the help of these official Theragem accessories, you will be able to target specific conditions and ailments for a more focussed and thorough approach.

GEMCUPS

Gemcups are at the heart of Theragem. The unique healing properties held inside each one differ from crystal to crystal, meaning that with a large collection, you will be well equipped to treat almost any complaint, from migraines to eczema. The wellness gemcups are specifically designed to address physical, mental, emotional and spiritual imbalances, harnessed with the use of the Clinique and Professional systems. Meanwhile, our health and beauty spa gemcups bring natural beauty and wellness to users in a relaxing and non-invasive way.

ACUPUNCTURE WANDS

The Theragem Acupuncture Wands have been specially designed to fit either the T1002 Professional or the T1005 Clinique system. Simply attach the two light beam condensers to the Theragem lightheads, with the desired gemcups in place. This technology utilises the well-known Chinese meridian acupuncture points of the body, but without the need to puncture the skin. The Acupuncture Wands are also perfect for use on small joints and growths such as moles and insect bites.

FLIGHT CASE

To ensure the safe transportation of your gemcups, our high-quality aluminium flight case is the only solution. With room for up to 32 gemcups within specially cut protective foam, the flight case allows you to keep your therapeutic equipment safe, avoid any possible damage, and maintain a professional look. The flight case can be tailored to your preferences, including space for our Acupuncture wands.
