As the field of integrative bio-energetic medicine continues to grow, a therapy has emerged that uses gifts from nature – naturally occurring wave frequency, colour, light and crystalline energy to bring about homeostasis on a physical, emotional, mental and spiritual level. These elements were always part of the innate wisdom and shamanistic traditions passed down through generations of healers from the Native American, Tibetan, Mayan and Vedic cultures for thousands of years.

IN BRIEF HOW DOES THERAGEM™ WORK?

The technology is a low powered, (non-coherent) polychromatic assemblage combined with specific pulsed EMF (electromagnetic fields) beamed through precious and semi-precious gemstones and crystals, which amplify and carry crystalline energy into the body.

By focusing the wavelengths, we are able to create photo stimulation, whereby a chain of chemical responses are triggered by targeted exposure.

UNDENIABLE POSITIVE EFFECTS ON THE HUMAN ORGANISM

Whether using modern, before and after, diagnostic techniques such as thermography, blood analysis, X-ray, Heart Rate Variability, bio-feedback or traditional techniques such as the 3 pulses or tongue reading, the positive effects of Theragem™ therapy are undeniable in most patients, according to centres for Integrative Medicine excellence across the world.

When using our **3 keys to vitality and homeostasis** therapy protocols, your clients/patients will feel more balanced, energised and know that they are on the road to renewed wellness, from their first therapy session.

For more information on the **3 keys to vitality and homeostasis** contact us.

OUR WORLD OF SELF-CREATED STRESS

Modern man is experiencing his most challenging health problems throughout the history of evolution, with stress and emotional/mental negativity being scientifically linked directly to 'dis-ease'.

In a recent clinical study, Professor John Weinman from the Institute of Psychiatry at King's College, London, demonstrates that people with a relaxed-type personality heal twice as quickly as those who have a stressed-type personality. Finally, modern day science and medicine is beginning to understand the mind-body connection.

This is something well understood by many ancient cultures, hence their reliance on Meditation, Mantra and Tantra to maintain mental, emotional, physical and spiritual balance.

A recent study conducted at the University of Oklahoma showed a direct correlation with shortened life-expectancy when loved ones use negative words against us, proving that words truly can kill. Our immune systems are constantly under attack from the words we speak, the food we eat and the air we breathe.

FLEXIBILITY IN YOUR THERAPY PRACTICE

The Theragem™ T1005 Clinique system can be used hands free in its custom-built cradle and stand or be hand held. It is designed to run off mains electricity (220v-110v) but also has a battery backup good for running a 60 minute session. The unit can be used whilst the battery is charging.

BASED ON YIN YANG AND AYURVEDIC WISDOM

Operating Theragem™ could not be easier for professional therapists, as its principles are based on common sense: - cool what is hot, warm what is cold and move stagnated energy where necessary.

Theragem™ Therapy is about bringing the body back into homeostasis, enhancing the spleen function as the gateway to our immune system. By taking care that your client leaves with a happy mind, you create a relaxed body in which the energy system of the body can effectively flow and strengthen.

A UNIQUE THERAPY FROM AN ANCIENT TIME

With Theragem™ the concept of balancing the Human Assemblage Point and cleaning the Human Energy-field is based on ancient Shamanistic tradition from around the world. The significance of a balanced Assemblage Point and clean Energy-field, as described in the books by Carlos Castaneda, need to be experienced to be fully appreciated.

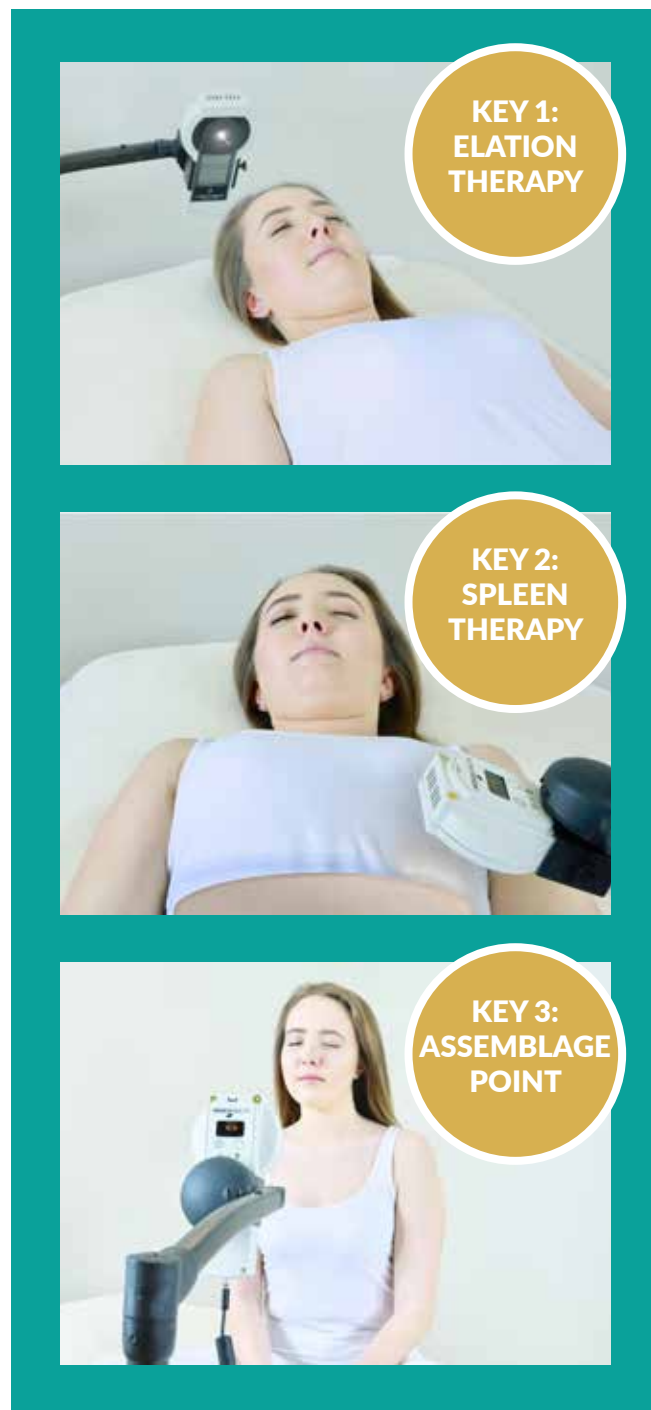

Elation Therapy, is the **first key to vitality and homeostasis**. Theragem™ eases the client into a long-lasting, relaxed Theta state, thereby allowing cells, glands and organs to rebalance themselves.

Spleen Therapy, **the second step**, activates the spleen for optimum filtering of the blood and detoxing impurities present in the body.

In order to demonstrate the impact of the Assemblage Point Process, a separate brochure is available. Please ask your sales point or request your copy via our website contact form.

THERAGEM™ TECHNOLOGY COMBINES:

- ✓ Incoherent Polychromatic Light Technology (480-780 Nm)
- ✓ Electromagnetic Field Technology (Alpha, Delta, Beta, Theta)
- ✓ MFG (Multi Frequency Generator 0.1 - 20,000 Hz)
- ✓ Schumann Resonance Technology Chromotherapy
- ✓ White Noise Technology
- ✓ Precious Metals (Gold and Silver)
- ✓ Precious Gemstones, Crystals and Minerals

THERAGEM™ T1005 CLINIQUE: ADDITIONAL OPTIONS FOR A WIDE RANGE OF PROTOCOLS

The latest generation Theragem™ - the T1005 Clinique - marks a technological leap forward with Theragem™, featuring a touch screen system and offering a wide range of programmable therapy options via intuitive icons and menus. A further addition to the Clinique range is the option of MFG (Multi-Frequency-Generation) with a cleverly designed simultaneous hammer and sweep action and over 700 pre-programmed protocols, as well as being manually programmable for total flexibility.

Four different software options are available to approach almost any symptom, with electromagnetic frequency technology based on more than one hundred years of research from scientists such as R. Rife, Nicola Tesla, Dr Hulda Clark, Jon. Schwartz, and many others.

SEPARATE MULTIPLE FREQUENCIES FOR YOUR THERAGEM

The MFG in your Theragem contains programs for micro-organisms, tonics for the organs, multiple protocols for long term degenerative diseases, for specific detox programs ranging from metals to chemtrails and many, many others.

MFG, SWEEPING & HAMMERING FOR THE WIDEST RANGE OF ACTION

The MFG modality (optional) gives therapists the option to select and run from 0.1 Hz all the way up to 20,000 Hz, including a sophisticated hammer and sweep function, as well as over 700 pre-programmed protocols based on the internationally recognised Consolidated Annotated Frequency List (CAFL).

Hammering action: Rather than deliver a constant frequency during MFG therapy, something rogue cells, parasites, bacteria and viruses can get quickly immune to, our engineering experts developed a randomised hammering action for all MFG protocols over 1000 Hz. On all protocols at less than 1000 Hz, the T1005 Clinique uses the base frequency to modulate a pseudo white noise signal source, which creates the randomised variation required.

Sweeping function: Rogue cells, parasites, bacteria and viruses can mutate when threatened. This may mean that they do not respond to the original frequency. To counter this issue, our engineering team created simultaneous sweep technology to continuously sweep by 2 Hz above and below a particular frequency during therapy.

ADDITIONAL SOFTWARE OPTIONS

BBL

In order for rogue cancer cells to become dominant and spread out of control within the human organism, the immune system needs to be in a state of strong suppression. For the immune system to become suppressed/ depressed, many potential negative factors on a mental, emotional and spiritual level need to have occurred, which lead to the physical manifestation of illness. Blood tests, biopsies and post-mortems in cancer patients have shown a distinct pattern of potential trace “driver” conditions in the test results.

Compact 15-minute sessions using Theragem™ T1005 Clinique on BBL modality, with its unique yet vigorous hammer and sweep action, delivers a compact frequency package to the body to eliminate the following trace “driver” conditions from the biological terrain:

Tetanus Syphilis (660), Gonorrhoea (Active), Strep Pneumonia Bacillus (Rod form), Tuberculosis (Rod Form), Strep (fungus), Bacillus (Fungus Form), Gonorrhoea (Inactive) and Sarcoma Carcinoma. This unique modality should be used with the support of standard Theragem™ Elation and Spleen therapy to obtain faster homeostasis to the biological terrain.

BBL has been designed to support clients undergoing traditional and/or integrative cancer care and may be considered as a preventative tool to eradicate the build-up of these which are linked to serious illness trace ‘driver’ conditions.

RAPID RESPONSE

An additional software program has been developed to help support the immune system at the onset of the flu/influenza season.

A compact program of one and a half hours running all known influenza frequencies allows the support of an individual’s wellness and wellbeing. Both programs use our famous Hammer and Sweep action, for a thorough, action packed session.

DIVINITY

Divinity is an excellent protocol that - when used with Mood Ease, Ground & Heal and Childhood I & II Gemcups, aims to relieve anxiety, settles any sleeping issues and calms ADD and ADHD. This program activates the major glands producing balance and harmony allowing for better concentration and connection to an inner stability for days and even weeks on end.

ETERNITY

The unique technological touch screen feature of the T1005 Theragem™ Clinique, gives you the optional choice of software to access the ‘Beauty from the Inside Out’ program with the use of the Eternity range of Gemcups.

Our Spa & Beauty Gemcup Collection contains over 15 specialised Gemcups which are designed to enhance skin tonality. The science of light has shown to support ATP, build collagen and elastin; thereby stimulating the skin to look naturally healthy and glowing.

CONTROL UNIT LIGHT HEAD

The Theragem™ T1005 Clinique control unit is compatible with all Gemcups from our three ranges. The Gemcups snap in and out of the control unit allowing for a quick and easy change of therapy modalities during therapy. Each T1005 control unit contains a 1 watt Luxeon Light Emitting Diode (LED) as well as the EMF electronics and coil to further potentiate the gems. The LEDs have an extremely long life of up to 25 years, at ten hours per day usage! The newest technical changes in Theragem™ T1005 Clinique Mark II, sees its launch combining a USB port, to allow for future updates in line with our friendly customer care service and ongoing support.

Our creative team have sourced and designed a stand which offers 360 degrees rotation, with a simple one-click height adjuster, and is easily portable.

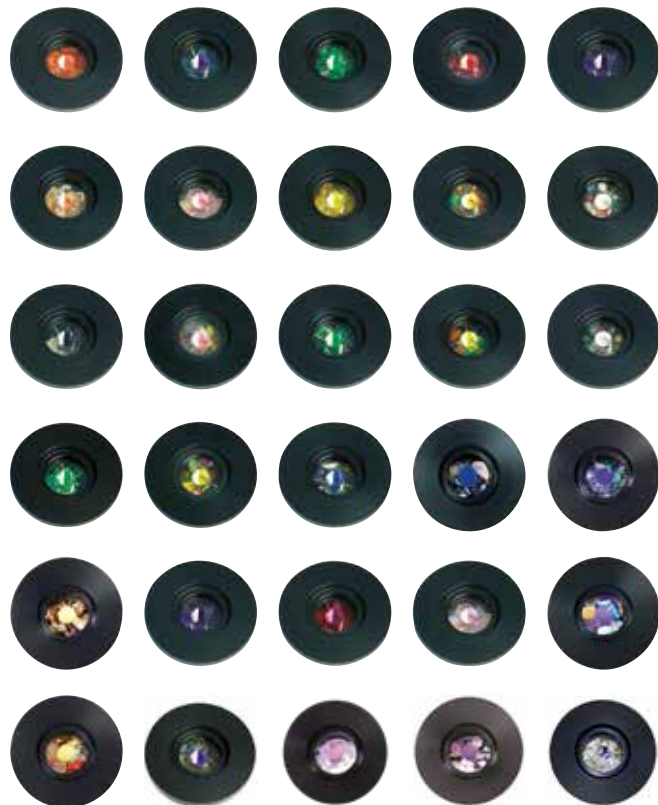

THERAGEM™ T1005 TECHNICAL SPECIFICATIONS

- Dimensions when assembled: W93, H96-150, D60cm
- Weight: 8kg
- Operates from mains electricity or internal battery for approximately 60 minutes (depending on frequency and intensity)
- Power pack operates from 100-230VAC+/-10%
- Can be supplied with region specific input cable
- Light head unit and cups: 1W LED light
- Life expectancy: 50,000-100,000 hours
- Theragem is CE certified, EU certified and Medical grade apparatus: conforms with Council Directives 2004/108/EC and 2006/95/EC by the application of: BS EN60601-1-2, EN 61000-6-2 and EN60950-1
- USA - FDA Registered under 510K

GEMCUPS

The Theragem™ T1005 Clinique systems come with a selection of inter-changeable Gemcups depending on your chosen configuration, each containing over 30 carats of precious gemstones, as well as solid 18 carat gold and sterling silver pins. For information on the whole range of Gemcups please remember to ask your local sales point or email us at: info@medicahealth.org

THE WELLNESS COLLECTION

THE SPA & BEAUTY COLLECTION

THE COLLECTIVE EVOLUTION COLLECTION

Constructed using almost 20 years of feedback and research from a growing body of therapists across the world, Medica Health International Ltd has put together four outstanding Theragem™ T1005 Clinique configurations to choose from.

Active

WHAT'S INCLUDED IN THE ACTIVE PACKAGE?

- 1 x Theragem Touch Screen Clinique Control Unit
- 1 x Stand for Clinique Control Unit
- 1 x Power Supply Unit – Medical Grade
- 1 x Sapphire Gemcup
- 1 x Diamond & Carnelian Gemcup
- 1 x Emerald Gemcup

- 1 x Flight Case
- 1 x Friends of Theragem User Manual (USB)
- 1 x Printed Operator Safety Guide
- 1 x Printed Theragem Protocol Sheet
- 1 x 3 Year International Warranty Card

Dynamic

WHAT'S INCLUDED IN THE DYNAMIC PACKAGE?

- 2 x Theragem Touch Screen Clinique Control Units
- 2 x Stands for Clinique Control Units
- 2 x Power Supply Units – Medical Grade
- 1 x Extension Pole
- 2 x Sapphire Gemcups
- 2 x Diamond & Carnelian Gemcups
- 2 x Emerald Gemcups
- 1 x Ruby Gemcup

- 1 x Flight Case
- 1 x Friends of Theragem User Manual (USB)
- 1 x Printed Operator Safety Guide
- 1 x Printed Theragem Protocol Sheet
- 1 x 3 Year International Warranty Card

WHAT'S INCLUDED IN THE ULTIMATE PACKAGE?

2 x Theragem Touch Screen Clinique Control Units

2 x Stands for Clinique Control Units

2 x Power Supply Units – Medical Grade

1 x Extension Pole

GEMCUPS INCLUDED:

2 x Sapphire

2 x Diamond & Carnelian

2 x Emerald

2 x Ruby

2 x Rose Quartz

2 x Moonstone

1 x Citrine

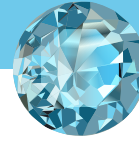

1 x Flight Case

1 x Friends of Theragem User Manual (USB)

1 x Printed Operator Safety Guide

1 x Printed Theragem Protocol Sheet

1 x 3 Year International Warranty Card

WHAT'S INCLUDED IN THE STAR PACKAGE?

2 x Theragem Touch Screen Clinique Control Units

2 x Stands for Clinique Control Units

2 x Power Supply Units – Medical Grade

1 x Extension Pole

1 x Table Clamp

1 x Acupuncture Wands Set

GEMCUPS INCLUDED:

2 x Sapphire, 2 x Diamond & Carnelian

2 x Emerald, 2 x Ruby

2 x Rose Quartz, 2 x Moonstone

1 x Nine Gem Ayurvedic

1 x Childhood II, 1 x Soothe

PEMF SOFTWARE INCLUDED:

1 x MFG, 1 x BBL, 1 x Rapid Response

1 x Divinity, 1 x Eternity

Medica Health Academy: One person – Online Theragem Basic Course

1 x Flight Case

1 x Friends of Theragem User Manual (USB)

1 x Printed Operator Safety Guide

1 x Printed Theragem Protocol Sheet

1 x 3 Year International Warranty Card

THERAGEM™ TRAINING

Medica Health International offer a variety of training options available to support and assist our Theragem™ practitioners.

Firstly, we organise annual training seminars in various locations throughout the world.

The aim of our holistic training seminars is to provide therapists with a deeper understanding of our Quantum Universe, exploring the mind-body connection and breaking down the self-imposed client barriers and restrictions, to allow homeostasis to take place.

These seminars are packed full of advice, hints and tips on how to get the most out of your Theragem™ Technology. Practical demonstrations are given and all your questions are answered.

Please contact us to find out where our latest training sessions will be taking place.

Then we have our all new Medica Health Academy: online training modules for every level from beginner to expert.

This is a great option for anyone interested in learning the basic principles needed to deliver high quality therapy and healing to clients.

The modules are easy to follow™ and you will receive a Certificate of Achievement upon completion of each module.

MALIGNANT PILAR SARCOMA

CASE STUDY OF MALE 29 YEARS BY T MUELLER, B.A., D.A.MED. - 2012

Description: A proliferating pilar tumor (PPT) is a rare neoplasm arising from the isthmus region of the outer root sheath of the hair follicle. It is also commonly called a proliferating trichilemmal cyst. Even though they usually are benign in nature, malignant transformation with local invasion and metastasis has been described. In this case it was of high concern that the malignant tumour not grow into the skull as it would become uncontrollable. In line with current experience the life expectancy was expected to be no more than three months due to very aggressive and erratic, chaotic growth.

With consent of his oncologist the patient consulted a well-known Ayurvedic therapist after having been diagnosed November 2012 with a malignant Pilar Sarcoma on his skull. His oncologist had prescribed him a conventional program of chemo and radiation with once - twice weekly surgical procedures scraping the tumour to closely follow the progression.

The Ayurveda therapy started mid-December 2012 and consisted of herbal and oil tinctures, yogic breathing, meditation and dietary advice suiting his constitution and the condition. The therapist added Theragem Fusion Light therapy with standard protocols, Elation and Spleen, twice a week as well as the Theragem's additional BBL therapy focused with Acupuncture wand straight on the tumour with Nine Gem Ayurvedic Gemcup, plus additional Theragem' detox sessions on the liver organ.

After the first initial sessions the oncologist reported it became easier to scrape off the tumour, the lab results showed less erratic and aggressive growth. During Christmas recess the patient received ongoing conventional therapies together with the Ayurvedic meditation herbal tinctures and daily yogic breathing. He was not exposed to Theragem due to the Ayurvedic therapist being away for a period of three weeks. Within two weeks the cancerous tumour was growing as aggressive and erratic as before the Theragem treatments started, being very difficult to control.

In the third week of January the team and the patient decided to add on and continue with the additional Theragem protocols resulting in a calming pace of the erratic and aggressive growth. A further additional protocol, BBL, was applied with specific Gemcups SriLankan Cats Eye and Zircon/Emerald, directly focused with Acupuncture wands on the tumour now diminishing growth and behaviour.

At the end of February an additional Theragem therapy of Assemblage Point Reconnection was applied every second week to help dissolve trauma and unresolved negative emotions. The patient had experienced panic attacks, lack of appetite, and fluid retention. At the end of March the number of sessions went up to 3 weekly sessions. The oncologist reported and concluded the beginning of May the cancer had gone into remission. As of January 2016 there is no recurrence of the tumour other than a small non-malignant growth.

Conclusion of both medical specialists was that the application of Theragem Fusion Light Therapy proved to be the treatment that made the difference. Side effects of the radiology and chemo had been kept to a minimum. Both specialists had worked separately on similar cases with no success.

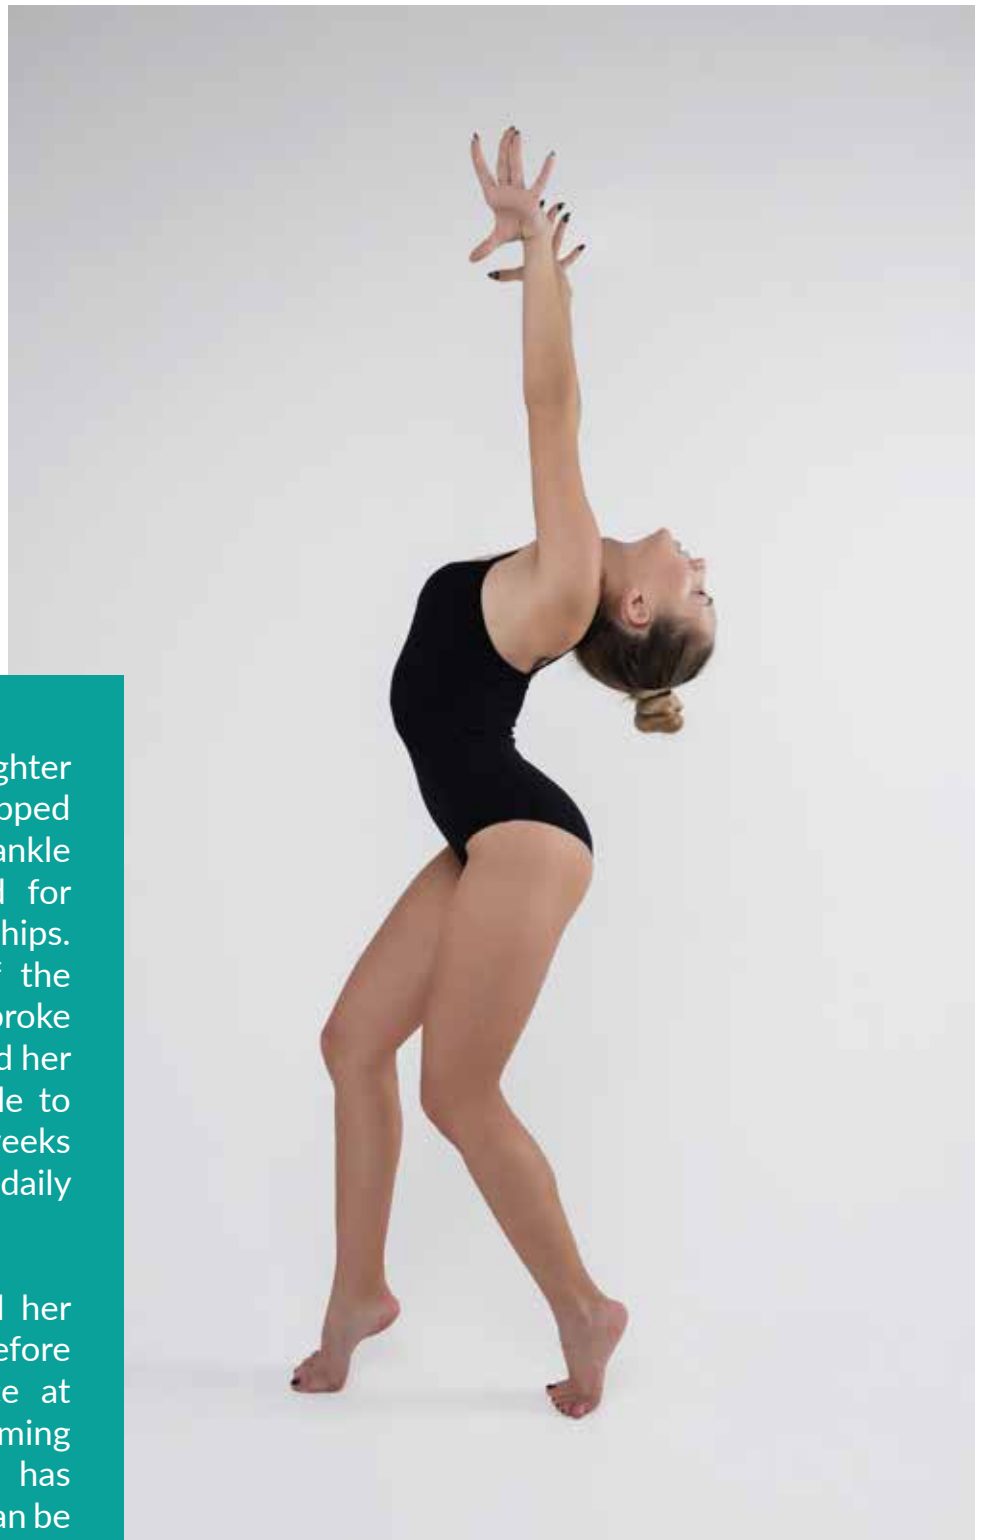

Update January 2021: In 2015 a small benign cyst was found and treated with Ayurvedic herbs and Theragem sessions. To date, in 2018 the patient is still in remission and otherwise healthy and is satisfied with his life.

“My 12 year old daughter who is a ballet dancer ripped the tendons of her left ankle just after she qualified for the German Championships. Having practiced as of the age of 3 her world broke down, as the doctors told her she would never be able to dance again. For three weeks she was treated with daily sessions of Theragem™.

Amazingly she resumed her training the week before and was able to dance at the championship - coming second! Her ankle has completely healed and can be moved however she wishes.”

SD, Naturopath – Germany

www.medicahhealth.org/theragem-collection/case-studies-flipbook

THE THERAGEM™ COLLECTION

We have a range of exciting products available to support your Theragem healing work.

THERAGEM™ GEMCUPS

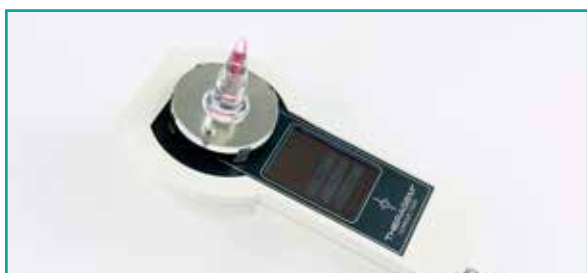

Gemcups are at the heart of Theragem. The unique healing properties held inside each one differs from crystal to crystal. With a great choice of over 60 different blends to help dissolve a wide range of conditions, all Gemcups can be used in all Theragem configurations. Ask for your special Gemcups brochure.

ACCESSORIES

GEMCUP FLIGHT CASE

A safe, professional way to store your collection of Gemcups. For practitioners with multiple clinics, or for those specialists who visit patients at home, the Aluminium Flight Case is the perfect accessory.

ACUPUNCTURE WANDS

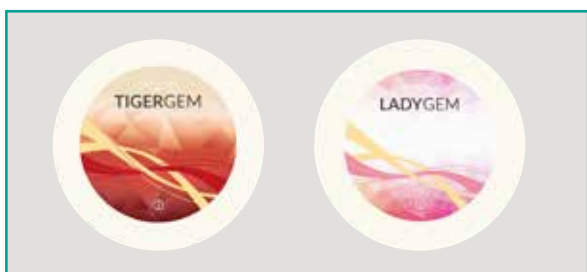

Non-Invasive Light Beam Therapy
Using well-known Chinese meridian acupuncture points on the body, the Theragem Acupuncture Wands can deeply penetrate the skin without needing to puncture it.

WHNC BOXES

Over 300 vibrational frequencies calibrated to positively counteract a number of detrimental frequencies in the body. Easily connects to your Theragem unit meaning that the frequencies encoded within the WHNC boxes are added to the Theragem output

MORE THERAGEM™ PRODUCTS

TIGERGEM & LADYGEM UNITS

A compact, portable solution to a range of male and female complaints. Packed with healing crystals and minerals.

THERAGEM™ STAR PENDANTS

Waterproof and sealed with quantum technology, what a gift for a joyful lifetime of grounding and happiness!

THE MHI RANGE

We also offer a range of therapeutic and monitoring tools for your practice. All products from our range can be used in practices, centres and clinics and are suitable for use at home to help maintain optimum wellness and health.

OFFICEGEM WATER PURIFIER

Theragem Technology with its unique blend of light, colour, and electromagnetic frequencies fused with precious metals and gems to enhance your water, quenching thirst on a cellular level and filling the body's systems with life energy. Clear, cleanse, and purify any liquid, resulting in the best taste, quality, and purity.

SUNRISE SUNSET

The SunRiseSunSet SR-100 is the relaxing, unique and calming solution that you have been looking for. The SRSS PEMF mattress and clock can be used at home or as a complimentary therapy together with Theragem range.

VIOFOR JPS SYSTEM

Using a unique kind of pulsed electromagnetic energy, Viofor JPS has provided positive results for many conditions, including migraines, sports injuries, arthritis, multiple sclerosis and neurological disorders, as well as providing the recipient with all-round incredible health and wellbeing.

LIVING WATER VORTEXÉR

The Vortexér jug has been created and developed to detox and structure water from the tap. The Vortexér's silver, leaf-shaped propeller uses an inward-rotation, left-turning spiral-shaped movement that raises the Bovis value, generating life energy and clearing unwanted toxins and chemical residues..

Please get in touch with us if you'd like to learn more about any of our products.

We can offer advice and guidance on which therapeutic tools will best fit your needs, either as a practitioner, or for personal use.
